

## About VPI PCB Design

### Professional Printed Circuit Board Design and Layout Services

**Division Information:** VPI PCB Design provides engineer-directed printed circuit board design and layout services. Through many years of dedicated and high quality PCB design services for a wide variety of clients, VPI PCB Design's team has a proven track record of meeting our clients' challenging demands. VPI PCB offers a unique and effective combination of U.S. and China PCB designers to tackle any PCB design task.

#### Design Capabilities

Ranging from simple to complex, we have experience designing many types of circuit boards.

- Single sided
- Double sided
- Multiple layer boards
- Rigid and flexible circuit board technologies
- Through-hole and surface mount components

Extensive experience with

- EMI protection
- High-speed signal design
- Differential impedance control
- Fine pitch BGA layout
- High current/voltage designs
- Sensitive analog circuits
- Design for manufacturability
- Design for testability

#### Contact Information

VPI PCB Design  
11814 S. Election Road, Ste 200  
Draper, UT 84020  
(801)495-2310  
info@vpitech.com  
www.vpитеchnology.com

#### Services

Our services include:

- Schematic Capture
- Component Footprint Capture
- PCB Design
- PCB Layout
- Prototype Procurement

#### Software Capabilities

VPI PCB Design has the ability to complete your schematic capture and PCB layout in several different software packages including:

- Altium Designer
- Legacy PCAD
- Cadence OrCAD/Allegro
- Eagle (Altium Conversion)

#### Quick Estimates

VPI PCB Design offers a quick online quote form. You can go to <https://www.vpитеchnology.com/pcb-estimator> to get started on your next project today!
